

Meet Rob Bannink.

I am 48 years old and was raised in Sparta, MI and graduated from S.H.S. in 1985. I have a criminal justice degree from Ferris State University. I work for Consumer's Energy at the B.C. Cobb plant as a millwright. I have been with Consumer's for 23 years and live in Fruitport. I have been fishing since I could basically walk. My father was an avid steelhead fisherman along with all other species. I have been coming to the Pentwater area since I was born. My grandparents built a cottage on Juniper beach in 1962 and I am lucky enough to be a part owner of my grandparents place. I thoroughly enjoy the fisheries of the great lakes and its tributaries. Pentwater has always been my homeport for trolling and King salmon is my fish of choice because it is the KING. I believe in the P.S.A. and in what this organization does for the great lake fisheries as well as for Pentwater and surrounding communities. I hope I can be a good advocate for P.S.A. and look forward to serving on the board.
