

Roy H. Mann – I.S. 78
Professional Learning Plan
2018 – 2019

Through an analysis of our Quality Snapshot, NYS Accountability Report, Quality Review, Instructional Focus, The Framework for Great Schools, Danielson’s Framework, Comprehensive Educational Plan, Teacher Observation Reports, Benchmark Assessments, individual student progress, and teacher surveys we have identified areas in need of improvement.

In order to provide each teacher with the training necessary to provide engaging instruction that allows for multiple points of entry based on student data, we are offering a mixture of professional learning sessions focusing on high need areas. Teachers will also be given the opportunity to align curriculum, align assessments and grow together through monthly ambassador led planning sessions.

Teachers will identify one instructional planning, classroom environment or instructional interaction goal based on the attached Danielson’s Framework for Teaching at the start of the year and meet with their subject area supervisor to discuss their professional goal for the year. As part of the summative conference, teachers will meet with their subject area supervisor to reflect on their progress towards meeting their goal.

Over the course of the school year teachers will receive training in:

- Claims & Counter Claims
- Cognitive rigor
- Classroom management
- Collaborative planning
- College and career readiness
- Danielson’s Framework
- Data analysis
- Differentiated instruction
- Effective Questioning
- Formative & Summative Assessment
- Online Enrichment Learning
- Portfolios
- Questioning
- Self & Peer Assessments
- Supporting ENL Students
- Use of Technology
- Using Assessment to Drive Instruction

Date	Professional Learning Workshop	Presenter(s)
9/17/2018	Crisis Intervention Training	Mr. Diesa
	Child Abuse Training	Ms. Finegan
