## PARENT RESOURCES:

Parent Portal access on our website [www.troybabesintoyland.com](http://www.troybabesintoyland.com)

It is extremely important to us to make certain our lines of communication are open between each and every family and our staff. Our website contains a plethora of information that will change periodically.

To protect the confidentiality of our children, secure access to certain information is required. In the upper right hand corner of the website you will find a tab "sign-up" next to a tab "parent portal". You must first click the "sign up" tab and register – shortly thereafter a password and username will be emailed to you so that you can gain access to the "parent portal".

When you select the "parent portal" tab you will be able to access office and classroom newsletters, lunch menus, BIT blog, photos, documents to download, as well as, printable activities to do with your children. This information is not available to the general public so please be sure to sign up for the "parent portal" right away so you don't miss out.

It is important for you – the parent to take the initiative and check this site and the "parent portal" monthly. Teachers may be requesting help or materials etc. and this is their conduit to reach you.

Please notify the office if you are unable to log-in.
