

Latino Legislative Day

Hosted by Latino Civic Alliance February 10, 2020

Organizing 101:

Learn about grassroots organizing and how to get involved. Grassroots movements and organizations use collective action from the local level to effect change at the local, regional, national, or international level. Brainstorm ideas, and network with other youth from around Washington to create your own project and hear from key-note speakers, on not only their experiences but how they've spearheaded such organizations, and where to get involved!

Know your Rights:

In this Know Your Rights workshop we will be focusing on educating students on the rights of immigrants in the United States. Specifically we will be focusing on the legislation in existence governing their abilities in the country. After our presentation, we intend to host an in depth question and answer session to verify that the students have grasped the multi-faceted topic of immigrant rights. We will also provide a list of resources to the students on further education or assistance.

Youth on Youth Violence Discussion:

This workshop is aimed at deconstructing the narrative around youth that tend to be deemed as "trouble children" or "bad apples" in our school communities. Throughout the work shop you will learn what youth on youth violence really is and go in depth about the factors that cause it.
