

## You Can Build It With BuildTrain...

Foundation courses at BuildTrain are designed to demystify DIY allowing you to gain the knowledge, skills and confidence to complete those nagging jobs around your own home. Our courses are led by fully qualified trainers with years of experience in the trades and will allow you to complete those dream projects and ultimately save you money.

Real learning only happens when you take the plunge and get your hands dirty. Our courses offer the unique mix of expert tuition and real hands on practice.

Some examples of our Foundation courses include:

<b>Building a Garden Wall</b>	<b>Plumbing Taps and Washers</b>	<b>Plumbing Radiators and Valves</b>
<b>Wall Fixings Mirrors and Shelves</b>	<b>Carpentry Doors and Architraves</b>	<b>DIY Wall Tiling</b>
<b>DIY Floor Tiling</b>	<b>Safe Use of Power Tools</b>	<b>Building a Stud Wall</b>

Our Foundation courses last between 3 and 6 hours and take place at our purpose built training base in Royston, Hertfordshire and include expert tuition, 1:1 advice and supported “hands-on” practice. Delegates on BuildTrain courses are uniquely placed to take advantage of all the hidden tips of the trade, personal experiences and advice that our trainers can offer from their years in the trade.

Often the most simple of home maintenance jobs are out of reach because of a lack of tools or knowledge in how to use them effectively and safely. All courses include materials, access to the necessary tools and tuition in how to use them safely.

If you have any planned or ongoing DIY projects our instructors can offer 1:1 expert advice throughout your build through our supported project management scheme. For those who are looking for an experienced, qualified tradesman to do a job for you around the home our experienced builders are available to complete the job for you with no need to get your hands dirty.

We have experience of all of the most common home improvements including extensions, conservatories, decking, paving and all aspects of home maintenance.

For more information about any of our Foundation courses, supported projects or for a quotation on any building project around your home please email [buildtrain@btinternet.com](mailto:buildtrain@btinternet.com).
