Lacknowledge that I have received and I have read the House Rules/Policies of Foster Tower. My family and guests assume the risk while using the common areas, including the gym, sauna, garage, hot tub, and swimming pool. Foster Tower does not have a life guard on duty, and it cannot guarantee or insure your and your guests' safety or security. Foster Tower is a condominium project, not a hotel: apartments are individually managed, booked, and maintained/repaired by their owners. Building management does not control the individual units and cannot move tenants to other rooms due to concerns (e.g., if neighbor is renovating their apartment, if furniture/appliances are not adequate). Individual Unit Property Managers assume the role of agent for the apartments. Please report all issues promptly to the property manager assigned to your unit.
