## Sunbury Ice Rink

The Sunbury Ice Rink has been a very popular winter recreation spot for Central Pennsylvania for many years.

The rink started as an open air facility and its popularity quickly grew. With attendance growing every year the rink started to take on some changes. Slowly it became a partially enclosed rink utilizing Mother Nature as its cold source. The Sunbury Ice Rink has become fully enclosed allowing an excellent place to view public skate or to take in one of many ice hockey games, without worrying about the elements outside.

### Rink History
