

**Prime Projects Design and Management Ltd.
PPDML Architecture & Project Mgt.**

(Chartered Architectural Practice)
Practice Profile.

About us:

We are a multidisciplinary practice where Architecture, Interior design and Project management experience come together as a team, to deliver design excellence in residential, Office, Religious, and Commercial building refurbishment, fit-out, New build and Interior design projects across the UK.

We are regulated by a professional body, the Chartered Institute of Architectural Technologist (CIAT). As a registered practice we abide by a very strict code of conduct to uphold the values and standards of the Institute.

Our project approach revolves around the (RIBA) work stages, from early concept and feasibility stages through to detailed design and working drawings, using our architectural skills.

Our goal is your complete satisfaction. And because all our clients are special, we work closely with you through your entire project process, from inception to completion. We are leaders in what we do. We have recently achieved planning successes in some of our recent commissions.

Our services include:

- Architecture: New build, Fit-out, Refurbishment and Conversion to Religious buildings.
- Building extensions.
- Loft conversions.
- Interior design services.
- Planning applications and Building control.
- Party Wall Agreement.
- Project and facilities management.
- BIM - LOD200/LOD300 - 3D Visualisation

Our Philosophy:

PPDML Architecture takes great pride in producing work of the highest quality and standard. We seek to greatly surpass clients' needs and expectations. We let experience form opinions and ingenuity encompass design. Our approach encompasses every element of design and building, covering all aspects from inception to use. We start by working closely with clients to understand their needs and translating this into innovative and creative design solutions. It is this approach which enables PPDML Architecture to produce exceptional designs, time and time again.
