Chronological and Thematic Review

Practice your chronological and thematic skills by characterizing each era. You can then sort the main events, processes, and people into the appropriate era to study change over time and other historical thinking skills!

Directions:

- Lay out your timeline in chronological eras based on the years. Some
 eras overlap. (or consider bulletin board... wallscape...or converting
 to digital.
- Then, add a thematic characteristic or other notes to help you summarize the era... and sort your study cards chronologically. (see study cards for more ideas)
