

**THE VIRGINIA ORTHODONTIC
FOUNDATION**

recommends lodging at

**The Richmond Marriott
Short Pump Hotel**

4240 Dominion Blvd.
Glen Allen, VA 23060
(804) 965-9500 or (800) 228-9290

Virginia Orthodontic Foundation rates:
\$109 per night single or double
Other options are available.

DEADLINE 02/03/23

All reservations must be accompanied by a first night room deposit or guaranteed with a major credit card. The hotel will not hold any reservations unless secured by one of the above methods. Reservation cancellations must be received by the hotel at least **24 hours** prior to arrival to avoid being charged one night's Room and Tax.

Be sure to mention the name of the group when making reservations in order to obtain the group rate. Check-in time is 3pm; checkout time is 11am. Rate does not include a 14% tax (subject to change).

The Richmond Marriott Short Pump Hotel is conveniently located near I-64 (exit 178B) in the west end of Richmond on Dominion Boulevard in the Innsbrook Office Park (turn left at the first light on Broad Street after exiting the interstate, hotel is on the left).

Room reservations must be received by 5pm on Friday, February 3, 2023 to receive this special rate. After this date, it will be on a space and rate availability basis.

ABOUT THE SPEAKER

DAVID M. SARVER, DMD, MS

Dr. Sarver received his DMD from The University of Alabama School of Dentistry and M.S. in Orthodontics from the University of North Carolina in 1979. He is a Diplomate of the American Board of Orthodontics, a member of the Edward H. Angle Society of Orthodontists, a Fellow in both the International and American Colleges of Dentists and a Fellow in the American Academy of Esthetic Dentistry. He has had the honor of presenting the Salzmann, Mershon, and Angle lectures at the AAO annual meeting, and in 2022 was the recipient of the Blair award from the AAOF. He has published 80 scientific articles and 20 book chapters.

In addition to his private practice, Dr. Sarver's book, "Esthetics in Orthodontics and Orthognathic Surgery" was published in September 1998. He is also co-author (with Drs. Proffit and White) of the surgical text "Contemporary Treatment of Dentofacial Deformity," and is co-author of the 4th, 5th, and 6th editions of Proffit's classic textbook, "Contemporary Orthodontics". His newest book "Dentofacial Esthetics: from Macro to Micro" was published in May 2020. He has given more than 400 professional presentations in the United States, Europe, Australia, the Middle East, and East Asia.

ABOUT THE SPEAKER

MAZYAR MOSHIRI, DMD, MS

Dr. Maz Moshiri has been a faculty member for Align Technology since 2013. He is the co-founder of the Aligner Intensive Fellowship, an online residency that has educated nearly five thousand orthodontists worldwide on the proper treatment planning and use of clear aligners.

Currently, Dr. Moshiri is a Clinical Assistant Professor in the orthodontic residency program at the Center for Advanced Dental Education at Saint Louis University, with a focus on clear aligners. He serves on the clinical advisory boards of Orthodontic Partners, LightForce Orthodontics, and is an Associate Editor for the Voice of an Expert column for the AJODO Clinical Companion.

Dr. Moshiri is a Diplomate of the American Board of Orthodontics, as well as a Fellow of the American College of Dentists, the International College of Dentists, and the Pierre Fauchard Academy.

Nationally Approved PACE Program
Provider for FAGD/MAGD credit.
Approval does not imply acceptance by any regulatory authority or AGD endorsement.
3/1/2022 to 2/28/2025.
Provider ID# 394886

Dr. David Sarver

A Contemporary Look at Esthetics in Orthodontics: Where We Are and Where We Are Going

The specialty of orthodontics has made spectacular strides in the past two decades. As digital applications to orthodontic treatment kicks in, the similarity to Moore's-law and its application to orthodontic diagnosis, treatment planning and delivery of treatment is in only the first applications of this rapid development of technology. In this presentation, we will look back briefly at where our profession started, what are the current standards and what conceptual and practical advancements can we look forward to?

Objectives:

- Learn the most contemporary approach to esthetic orthodontic diagnosis.
- Learn how to efficiently integrate either dental and/or medical specialties into your workflow.
- Learn how to see, communicate, quantitate, and deliver outstanding outcomes.

Dr. Maz Moshiri

Using Invisalign to Achieve Your Goals – Suggestions for Every Malocclusion

Clear aligners have forever changed the way we deliver orthodontic care to our patients. Increasingly, having a digital workflow, especially as it pertains to treatment planning and appliance fabrication, allows orthodontists to fully customize treatment to exactly what our goals are for that specific patient. However, there is a learning curve with adoption of these applications. Join us as we review suggestions to help you achieve your goals with Invisalign. A thorough overview of the majority of malocclusions, and nuances associated with their resolution, will be reviewed.

Objectives:

- Learn the major considerations for a proper digital treatment plan.
- Learn the main considerations for treatment of Deep Bites, Open Bites, and Class II and Class III malocclusions.
- Learn how to avoid posterior open bites, and how to finish them when they occur.

Registration Fees:

\$0	VAOF Member (w/paid VAOF dues)
\$200	Orthodontic Resident
\$800	AAO Member (VAO/SAO/MASO, etc.)
\$1500	Non-AAO Member
\$1500	Non-Orthodontist
