

ThermoCat, LLC.

Energy Conservation through Innovative Science

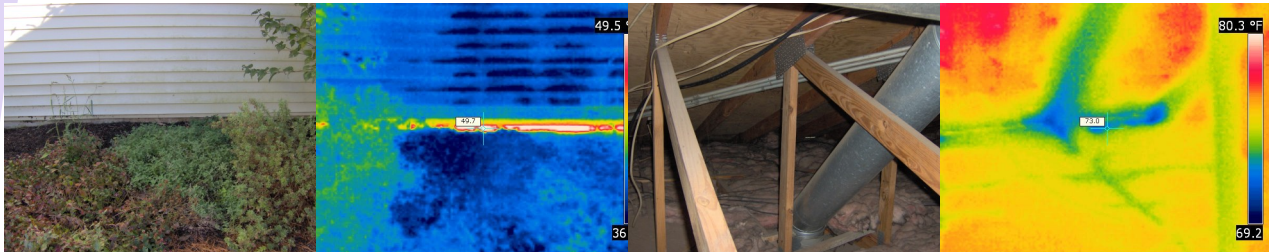

Commercial Energy Assessment

ThermoCat, LLC. is an Energy Star Partner performing energy auditing practices thru our building analyst team. Certified thru **Green Globes, LEED, CEM and RESNET** our experienced, insured team is ready to be your consultative resource. **Brief example of an energy assessment:** (1) Utility bills are analyzed (2) In order to identify energy transfer in progress, Infrared is the best and least intrusive method. (3) Manometer air pressure measurement is to identify air flow for HVAC (4) Combustion analysis for heating etc.. (5) Lighting and power metering for applications.

Education+Information+Action=Dollar Savings
