NEW!!! Therapy Dog, Family Manners and AKC-Advanced

This class will introduce handlers to the requirements for registration with recognized therapy dog organizations and types of therapeutic modalities with visiting dogs. Emphasis will be on helping the handler/dog team learn to work together successfully in a social setting (with role playing in class), develop effective visiting skills, recognizing signs of stress (in human and dog), and understanding the ethical and relational obligations to our dogs while engaged in animal-enhanced programs. Instructors will help class members prepare for an evaluation with Therapy Dogs International. Fee for this class does not include any fees associated with evaluation or registration with a therapy dog organization.

Inspired by working detection dogs, K9 Nose Work is the fun search and scenting activity for virtually all dogs and people. This easy to learn activity and sport builds confidence and focus in many dogs, and provides a safe way to keep dogs fit and healthy through mental and physical exercise. Whether undertaken for competition or just because it's fun this activity will help increase the relationship bond between you and your dog, increase your dog's focus, provide a safe and exciting activity for your dog where they use both physical and mental energy, help you to become a keener observer of canine body language and behavior, and this will be some of the best fun you will ever have with your dog!

Service Dog Clinic

(animals that assist in diabetic alert, PTSD, and other medical issues)

Is your dog ready to assist you as a service dog? What are facts about the laws and dealing with businesses. Come find out what you need to do to prepare your dog for the service dog world.

This workshop is geared toward those who wish to self-train your service dog rather than purchase a fully-trained service dog.
