Matthew - this is exceptional Your outline is coherent, with an overall focus, and a flow from one week to the next that makes an integrated course at the end, and also makes sense from week to week. Your assignments distribute the workload in a manageable manner, and also allow for multiple ways for students to learn and to present themselves/their ideas. I particularly appreciate the final synthesis paper, and may come back to you in the future (if I don't manage to stay retired!) to ask permission to use this.

Really, the only critique I can offer for feedback is that you sprinkle extra commas throughout your writing. That's it. Other than that, you have done a superb job of this assignment. So well done.
