

## Automotive EXPORT101: Learn the Basics of Exporting

Greenville SC- April 18th, 2018

Join us on Wednesday, April 18<sup>th</sup> for an Export 101: Basics of Exporting for your automotive company. Industry experts will share their knowledge on everything from **product classification, INCOTERMS, logistics and shipping, getting paid and compliance and legal considerations**. Hear from the manager for BMW's trade compliance division on exporting best practices and developing a successful trade compliance program. In addition, there will be an afternoon session on top export markets for automotive parts, aftermarket, and vehicles.

Presenters will include BMW, John S. James, Premier Logistics and Trading, NexGen Supply Chain Integrators, U.S. Department of Commerce, South Carolina Small Business Development Center, South Carolina Department of Commerce U.S. Export-Import Bank, the Small Business Administration, John S James Co., and others.

**Export101** is an introductory training which is a first step in a series of courses on exporting that are offered to South Carolina companies throughout the year to help your company begin or expand export activities and to gain skills that will assist you in growing your international sales.
