

The Broward Association of Rehabilitation Nurses (BARN)
Rehab Update 2021
Virtual
Friday February 26, 2021
9:00am to 3:30pm

The Broward Association of Rehabilitation Nurses is currently planning the 2021 Annual Rehab Update which will be held Virtually. At this conference, you will have the opportunity to reach rehabilitation nurses from a variety of practice settings including rehabilitation facilities, home health, insurance companies, outpatient settings and worker's compensation case managers to name a few. We anticipate attendance of approximately 100 rehabilitation professionals from various settings from the state of Florida.

We are following the same format for our vendor presentations as the FSARN Leadership Forum in 2020. The overwhelming response from the participants at that conference was how much they learned and enjoyed the Vendor Showcase. The participants shared that they felt more connected to the Vendors with this format. Your impact can be profound in this setting and I encourage you to take a journey with us on BARN's first virtual annual conference.
