Harmony @ work and Family through triple "A "adjustment of Individual differences

Potential Genesis HR Services LLP hasCertified MBTI Trainer from CPP.

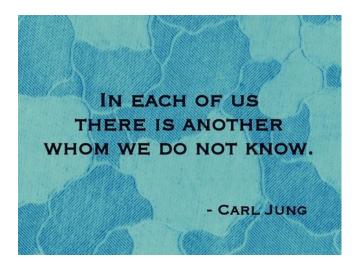

Because your people are your number one resource, it often means many personalities working together in the same office and Homes! This can lead to great collaboration, as much as difficult conflicts and misunderstood communications. We us help bring personality knowledge to you, your staff and family and give them the tools to discern traits and preferences.

You can relish harmony when you under the causes of differences between people.

Imagine if everyone thought, behaved and acted in the same manner and everything was predictable! Would our life be interesting!

Successful individuals are one who can acknowledge, accept and adjust to differences between people!

It is the understanding of our own types and that of others which will enable us to realize theunconscious.

Type and Your Work

When you understand your type preferences, you can approach your own work in a manner that best suits your style, including: how you manage your time, problem solving, best approaches for decision making, and dealing with stress. Knowledge of type can help you better understand the culture of the place you work, develop new skills, understand your participation in teams, and cope with change in the workplace.

Type and Family

Family lifestyle requires a harmonious melding of all members of the family. Understanding of

MBTI type can lead the way. When family members know and understand one another's type, they are less likely to assume they are "right" and others are "wrong." This is true across many issues including management of time, approaches to schoolwork, decision activities making, recreational and vacations, and even rules of the household.

Types and Children's:

The Murphy-Meisgeier Type Indicator for Children®(MMTIC®) is an assessment that was developed to measure psychological type preferences in children and young people from the ages of 7 to 18.

Understanding the meaning of type preferences enhances personal growth, regardless of age, but is especially important for young people who are at the threshold for learning how they can be *all* they can be within the natural framework of who they are.
