

Blessing Boxes

A Ministry Effort of Under The Horizon

Under the Horizon and A/V Solutions, LLC have developed a program to book-end the amazing back-pack food efforts within the Upper Adams community to help eradicate hunger in local families during the long holidays and summer breaks.

Established in 2016, after seeing an important community need, Blessing Boxes has evolved into a 3-part program. Blessing Boxes services food insufficient families over the school's Thanksgiving, Christmas, and Summer breaks. These times can prove to be a challenging time for families that are food insufficient. The Blessing Box program gives children of food insecure families a food box during these long school breaks.
