A MERSINO COMPANY

## 8GST Standard Trash Pump

At WMS, we pride ourselves in being able to offer multiple options for our customers, including the Global Pump® Standard Trash pumps. They are specifically designed to effectively handle a wide range of liquids from water to sewage and sludge that can contain solids and other materials. The Standard Trash pump provides a dependable and highly efficient solution. The model 8GST is capable of achieving maximum flows of 3,650 gpm (829 m<sup>3</sup>/h) and a maximum total head of 183' (55.8m) while handling solids up to 4" (101.6mm) in diameter. The 8GST is powered by a water-cooled, 4 cylinder diesel engine. Add our 24/7 service plan to your rental and you are guaranteed a hassle-free experience. Call us today!
