

Nick Notte started playing hockey when he was 6 years old. He moved his way up through travel programs with the Crystal Lake Leafs and played for Prairie Ridge High School all four years. After graduating, he no longer played competitive hockey, but kept up by playing intramural hockey at Winona State University where he studied Marketing and Journalism. After graduating with a Bachelors Degree, he bounced around between jobs, but now works on the sales team for Mirka, U.S.A.

When Nick is not working or coaching, he enjoys spending his time following the Cubs and Blackhawks, as well as spending as much time outside as possible playing golf, riding his motorcycle, fishing, and hunting.
