The Guccie Times has been following the Guccione mafia because we are concerned about the power of this regime in modern society. It has been said by many that the websites and corresponding media are just the delusions of Robinson, who claims to be Jim Guccione’s public official, and we have no proof that Jim Guccione even exists.

By far the proof is in the pudding. If Jim Guccione has a mafia we are sure it will expose itself in the upcoming months, or perhaps years, but the staff of the Guccie Times depends on the investigations of Robinson to support its claims. And one of these claims is the matter of pornography, a very prominent phantasm in modern culture.

We interviewed Mr. Guccione to see what his claims were on this topic. These interviews are done using electronic devices so we have no proof that the person we are talking to is actually Jim Guccione. It is the best we can do.

GT: Mr. Guccione, we are happy to have this opportunity to talk to you and present your person to the American People. We understand the people are eager to hear from you.

JG: Thank you, but I’m not a political figure.

GT: Yes, we understand. We wanted to present to you one of the most controversial topics in American history the matter of pornography. As you well know, pornography has effected many parts of our lives because of its free reign on the internet. It seems it is no longer a matter of being a billion dollar industry but it has become an art for its own sake. We wanted to know, it pornography a part of your mafia?

JG: No, its not necessary.

GT: Can you tell us anything about it? Many Americans are opposed to it ands some would even ask where it is being made so that they can avoid those communities.

JG: It’s a culture that stems from Bob Guccione’s Penthouse.

GT: So then it has its most powerful base in New York City?

JG: Yes, but the other major cities as well.

GT: We understand that Robinson recently made a claim that they make porn on Lark Street in Albany, the state capital and sell it underground in Greenwich Village.

JG: I can’t support that claim. Robinson has been known to make mistakes.

GT: He says that young men have been known to come to Lark Street from New York to rape the girls who star in the porn. He says that the girls really do not want to do that but they are forced to do it.

JG: Jim enjoys great quietness in his older years. I’m not sure about these claims. I wouldn’t arouse the people of Lark Street about something like this. Its not necessary.

GT: Yes, we see, Mr. Guccione. We are only speaking for the general public who seem to be concerned about pornography. But we understand now that you are not an advocate of it and it is not a part of your mafia.

JG: No, its not. Its not necessary.

GT: We see. Very well. Thank you for your time, Mr. Guccione.

JG: Likewise.
