

Hudson Stage 16, Edmonton

Stats:

LOCATION:
Edmonton, AB

CLIENT:
Beaverbrook Hudson II Ltd.

PROJECT TIMELINE:

OUR ROLE:
Prime Consultant

PROJECT TYPE: Residential Subdivision with SWMF

PROJECT DESCRIPTION:

This project consisted of: amending the NDR to include the remnant neighbourhood area not included in the original NDR, due-diligence, preliminary engineering, detailed design, and construction of a 10 ha residential subdivision and a constructed wetland in the Hudson Neighbourhood, north of 137 Ave and east of 140 Street. The subdivision was split into 2 phases of single family residential in addition to the SWMF.

Scheffer Andrew Ltd. successfully led a multi-disciplinary team including sub-consultants to complete the design, and initiated construction in early 2013. A significant component of the project was the design and construction of the SWMF which included real time control on the new lake as well as an existing lake, and wetland has features such as naturalized edge treatment, separation berm, and deep pool areas.
