Difference

**If you're like us, you believe in customer service.
If we have that in common, we should talk.**

WHO WE ARE

Dash Auto Logistics is both a carrier & broker providing full coverage across the entire nation. We are a team of seasoned professionals gathered together through a vision of core values and common goals from some of the largest logistic companies in the United States. A team of drivers and experts in the industry without massive overhead, upscale buildings, giant call centers, and large marketing programs. Because of this, Dash has greater flexibility in our pricing structure making the time to take care of what means the most, You.

Our business model is to provide senior level experience, with superior service at price points set to your needs. You speak with ONE person that manages your moves from start to finish and any issues that may arise in between while, providing you real time updates. With anytime access to your assigned account manager, we take the work load off of your shoulders allowing you to focus on what you do best.

Our services are free and unique. Service unlike anything offered in the market today. We welcome you to call us and find out why, DASH is the right move for you!

We identify the road blocks BEFORE they happen and deliver SOLUTIONS!
