DESCRIPTION: This X-200 Martin by Howatt is basically the same as the old Howatt Coronado design. Great looking and performing re-curve. Double-sided tip overlays. This bow is in excellent condition. No delamination; no cracks; limbs are straight. Overlays and tips are in great condition. No drilled holes. No chips, dings or cracks. No stress lines or crazing. A few scratches and scuffs here and there. This is a really nice bow. This is NOT a vintage bow, but of more recent manufacture.
