Hellenic Education for Healthy Minds, Healthy Bodies

March 1st, 2017

Dear Friends,

Our mission is to offer our youth at **"Super Happy Healthy Kids"** after school programs committed to the "Pursuit of Excellence" through Hellenic Education.

Our program will consist in various fun and educational workshops and activities centered on the Hellenic language (both modern and ancient), mythology, arts, and gastronomies, and aimed at instilling within our youth the ancient and lasting ideal of Ethos.

It is the cultivation of this Ethos that will help the youth of our future navigate a beautifully diverse world with awareness, acceptance, and admiration -- all necessary for achieving the peace, unity, and harmony that our humanity and sacred planet desperately need.

It is our hope that through the exchange of Hellenic wisdom, culture, and ideals, we will help create happier, healthier children for today, and the future.
