

### Environmental Policy

**Fluoro-Tech Limited** aims to be the first-choice partner for first class non-destructive testing services to our customers, and to offer quality assurance which meet the customers' demands for quality, performance, costs, reliability and low environmental impact.

Fluoro-Tech Limited recognizes that our day to day operations and our waste can directly and indirectly have an impact upon the environment and are committed to achieving the highest standards of "environmental best practice" in all aspects of our business.

These objectives will be realized by

- Establishing, implementing and maintaining an Integrated Management System which complies with the requirements of ISO 9001:2015 & AS9100D
- Striving to understand our customers' needs and expectations and thereby satisfying them
- Setting objectives and targets for Quality and Environmental performance, and establishing measures to enable us to regularly review progress against those targets
- Achieving and maintaining a cost-effective, profitable and environmentally friendly process
- Employing a continual improvement approach to our products, services and internal processes; particularly those with significant environmental impact
- By setting and maintaining the highest standards of health and safety throughout the business.
- Training and developing a competent and efficient team-oriented workforce while raising environmental awareness
- Promoting open and effective communication throughout the organisation
- Working with and encouraging our supply partners, customers and haulers to adopt and promote an effective environmental approach
- Communicating our quality environmental commitment and achievements to staff, customers, partners, suppliers and any interested public parties
- Complying with all relevant local, national and international legislation and codes of practice and, where feasible and cost effective, adopt the best available technique
- Providing evidence of our approach to the protection of natural resources and climate change
- Demonstrating a commitment to the prevention of all forms of pollution
- Fostering and realizing a positive environmental practice throughout the company
- Seek out and respond to new opportunities to reduce the environmental impact of our products and manufacturing methods
- Reviewing this policy, and the effectiveness of the Integrated Management System and business processes at Director Level.

**All employees are responsible for working towards the objectives contained within this policy**

**Fluoro-Tech Limited** activities shall be carried out in a defined and cost effective manner with attention to continually satisfying and exceeding the expectations of all our Customers.

This Policy & the **Fluoro-Tech Limited** Integrated Management Systems Manual describe the structure of the documented system and how associated procedures and processes are implemented, operated and maintained to ensure that the company will only supply products that conform to agreed specifications and standards with minimal effect of the Environment and which are appropriate to the requirements of our Customers.

The Integrated Management System has the full support of the Technical Director and every employee is hereby directed to comply with operating procedures, and be responsible for carrying out his or her duties in accordance with **Fluoro-Tech Limited**.
