

### Color Me Project

- Adobe Photoshop is a very powerful image editor that can bring life to otherwise dull and unexciting photos. Using the tools and features of the software, a photographer can take his or her pictures to the next level and produce professional-looking images.
- In this project, you will learn how to use the selection and coloring tools of Photoshop to add a splash of color to a black and white photo. The overall goal is to bring a dull photo back to life by accurately coloring the components to make them seem life-like.
- Choose one of the black and white images below and use the refined selection tools of Photoshop to carefully select particular areas and add color. Be sure to add each color on its own layer just in case you need to make adjustments later on. Leaving

several colors on the same layer (especially the background layer) can result in you having to start your project all over again!

- As you work, save your project as a .psd and name it lastname\_firstname\_colorphoto.psd. When you are finished, save it as a JPEG with the same name (ex: peterson\_mike\_colorme.jpg) and submit it. **Make sure you review the rubric for this project to make sure you aren't going to lose any points!**

**Images to be used for this project:**

*And... And...*

## Color Me Photo Project

You've already rated students with this rubric. Any major changes could affect their assessment results.

Criteria	Ratings	Pts
Realistic colors have been used to color the photo	This area will be used by the assessor to leave comments related to this criterion.	15.0 pts
A proper color mode has been applied to each layer	This area will be used by the assessor to leave comments related to this criterion.	15.0 pts
All of the black and white in the photo has been painted	This area will be used by the assessor to leave comments related to this criterion.	15.0 pts
Each painted area is clean around the edges with no overlap	This area will be used by the assessor to leave comments related to this criterion.	35.0 pts
File saved in the proper format (.jpg)	This area will be used by the assessor to leave comments related to this criterion.	8.0 pts
File was properly named (lastname_firstname_colorme)	This area will be used by the assessor to leave comments related to this criterion.	8.0 pts
File was properly uploaded to Canvas on time.	This area will be used by the assessor to leave comments related to this criterion.	4.0 pts
<b>Total Points: 100.0</b>
