

President's Message

Friday Registration and Inspection was up and running by 11:00 a.m. We completed inspection at 5:00 p.m. with a total of 82 entries. Saturday morning the ambulance and fire were there early and the patrols were in their positions ready to go (Let's go racing!!!). The whole day went great; we put down 170 passes by 2:45, then we called it quits so the course workers could move the course and the starting line for Sunday's race. Sunday morning was very heart felt with my fair well drivers meeting and a little joke about the desert tortoises. Wayne said a really nice prayer and Wendell sang the National Anthem, with I think the entire crowd singing in harmony. Thank you both Wayne and Wendell. We received more entries totaling 146 for the weekend. By the end of the day the course was in bad shape, so we had to shut it down a little early, but we were still able to run 118 passes (with a total of 288) not too bad for a 2 day event. Thank you to all the membership of the SCTA, without you all being part of this great family of volunteer's our fun weekend of racing in the dirt would not be possible.

See you at the Banquet,

Bill Lattin

SCTA President
