(1) Varsity Rosters may include junior varsity, redshirt and reserve and do not reflect club or intramural team participants.

\*\* Women's NCAA I Volleyball is a *headcount* sport so there is a limit of 12 players per school that can typically be under scholarship annually. All other NCAA Volleyball programs are *equivalency* sports for scholarship purposes, so partial awards can be awarded to meet the annual limit. For example, an NCAA Division II school can award 16 female volleyball players each a 1/2 scholarship and still meet the limit of 8 per team. Men's volleyball is an emerging sport of the NAIA. See our page on [scholarship limits](#) for more information.

(2) Average Athletic Scholarship is the average amount of athletically related student aid per athlete for ALL varsity sports sponsored by the specific school. Some athletes receive full awards, some receive partial and many receive none. Additionally some sports within a school may be fully funded, some partially and some sports provide no athletic scholarships. Private schools generally have higher tuition than public schools and the average award will reflect this.

**New Data! 2016 Athletic Scholarship Averages for NCAA I Volleyball teams**

The following are the results of our 2016 survey of NCAA I schools that sponsored varsity Volleyball teams during their 2015-16 fiscal

years. The results reflect the average number of athletic scholarships and average dollar amount awarded by responding schools, as well as the low and high range for the number and average dollar amount of scholarships awarded per team:

| Women's NCAA I Volleyball Teams | Average   | Low       | High      |
|---------------------------------|-----------|-----------|-----------|
| # of Scholarships Awarded       | 13        | 12        | 16        |
| Athletic Scholarship Amount     | \$ 32,197 | \$ 21,526 | \$ 45,557 |

Sorry, not enough data to report on men's teams so far. The number of scholarships awarded is per team, so for 4 year schools typically only 25% or so will be available for the incoming (i.e. freshmen) class. NCAA I schools that do not award athletic scholarships (Ivy League, etc.) are not included in these results.

## Quick Stats - Four year schools that sponsored varsity Volleyball teams in 2015:

| Schools with 4 Year<br><u>Varsity Volleyball Programs</u> | City         | State | Division | Roster Size (1) |       | Average Athletic Scholarship (2) |        | Annual Tuition & Fees |              | SAT Math Average (3) |     | % Admitted |

(1) Varsity Rosters may include junior varsity, redshirt, reserve and/or practice squad players and do not reflect club or intramural team participants.

(2) Average Athletic Scholarship is the average amount of athletically related student aid per athlete for ALL varsity sports sponsored by the specific school. Some athletes receive full awards, some receive partial and many receive none. Additionally some sports within a school may be fully funded, some partially and some sports provide no athletic scholarships. Private schools generally have higher tuition than public schools and the average award will reflect this.

(3) SAT Math Average: For each school this represents the range where the middle half of the admitted students scored, so 1/4 scored below the lower end (25th percentile) and 1/4 scored above the upper end (75th percentile).

*Statistical information on college athletic scholarships  
and student athlete participation at the collegiate level.*
