

Archery Sayings

Archery targets used to be called butts, so to be the butt of a joke is to be the target of ridicule.

if you love something, set it free
if it doesn't come back,
load up the broadheads
and hunt that lil' critter down.

There is no such thing as a bad shot.....just the end result

The spot is our friend.

Aiming is but another anchor point.

Aim within the shot, don't shoot within the aim.

Archery is Like an erection, the more you think about it, the harder it gets.

Archery is not a sport, it's brain damage.

"Shut up and shoot!"

Don't worry, shoot happy!!!

"If you are not working to protect hunting, then you are working to destroy it."
-- Fred Bear

"The grizzly bear is the most thrilling of all game to me... While one senses dignity about them, there is the power and fury hidden there that is unexcelled by any animal on this continent.. I hope he will not recognize the limitations of the bow!"
Fred Bear

The more you practice, the luckier you are.

Once they're out of the quiver, there's no telling where they'll end up.

The arrow flies not from the Bow, but from the heart...

Shoot the shot...Not the score.

Whether you are trying to play hide-the-arrow or not, at least know where you're shooting.

"I was clean & perfect - - until I shot the first arrow."

May the Dot be with you!

The only way I can get my arrows to group is to put them in my quiver!

Archers Score More

Only from standing on the shoulders of the past can you see into the future: After a bad shot just learn what you did and make the next arrow the best.

Shoot for the moon, and if you miss, you will still be among the stars.

"My wife told me that if I go to one more archery shoot she's going to leave me. Gosh, I'm going to miss her".

A bullseye is the easiest shot you'll ever shoot. If you struggle it's probably not gonna be a bullseye.

Nothing is usually wrong with the bow except for the nut attached to the handle

"Look, if John Bear could shoot pheasants out of the air with a recurve, you can damn well hit that little yellow circle that's not even moving."

Nice Bounce!!

Archers are weird; They put their faces on their butts.
