

Jupiter Sports Manual *New Engraver 2012*

Included in the Jupiter Sports Engraver Package

1. Jupiter Sports Engraving System
2. 2 power plugs
3. Wireless Keyboard with trackpad with Thumb Drive (on bottom of keyboard)
4. Templates (if standard)

Included in the Monitor Package (if requested)

1. Flat screen monitor
2. 1 power plug and 1 serial adaptor

SETTING UP YOUR ENGRAVER, MONITOR, and KEYBOARD

Make sure to put your boxes in a safe place for keeping. If any shipping needs to occur for these items you MUST ship in the original packaging or there will be a \$250 charge

The ENGRAVER

Plug in the **2** power plugs from the engraver into wall outlet or power strip

- left side of engraver - regular 3 prong power supply
- back of engraver - Universal AC Adaptor (MAKE SURE IT IS SET TO 24V)

The MONITOR

Plug in the power cord into wall outlet or power strip

Connect the Serial cord from back of Monitor to the Serial outlet (blue) on the back of the Jupiter Sports Engraving System

The WIRELESS KEYBOARD WITH TRACKPAD

Put the batteries supplied into the bottom of the keyboard

Remove the Thumb Drive supplied on the bottom of the keyboard and put it into any USB slot on the back of the Jupiter Sports Engraving System

You are now setup to run the engraver

IMPORTANT NOTE: The Jupiter Sports Engraver runs off of a thumb drive in the unit - it does take a minute to go through the boot up process. Thank you for being patient.

(when putting new templates on base)

POWERING UP

Press the Green button on the back of the Jupiter Sports Engraving System

You will hear the fan start and the Jupiter Sports logo will appear on the screen

** This can take up to 45 seconds to boot up*

Double click on the Jupiter Sports icon

This will bring up the home screen and the template space will move into LOAD/UNLOAD position.

You are now Powered Up and Ready to Engrave

ENGRAVING A PRODUCT

On Engraver

1. Pick your physical product matching template
2. Put product in space on on the template that fits it firmly
3. Place the template onto the peg holes on the engraver - click the Arrow keys up or down if you need to move the base for easier access

On Computer Screen

1. Click on your matching template from the **TEMPLATE LIBRARY** (*Click on bar to close/open LIBRARY*)
- should a text box accidentally move, open up Template Library and reopen your matching template

2. Click inside text box (*outline will turn red*)

- A number will appear to the left of the text box indicating which line you are using

- To get to next line hit ENTER

- To get back to top click the cursor on the top of the text box

3. Type your text

- There are 3 lines available for engraving

- Hit ENTER to get to next line - The text box will automatically adjust itself

-

TO DELETE A NAME OUT

Reference the number to the left of the text box

- Hit Enter to get to lower line

- Click cursor to top of text box to get to higher line

- BACKSPACE will delete the name out

4. Choose your Font. From the pull down Current Font menu choose. The whole template will change to that font.

5. Click ENGRAVE button on right bar

Be patient it takes a few seconds for processing.

The engraver head will always go through the Home Position to set itself before engraving.
