STEM Education + 21st Century Learning = Readiness for the Future

- Does your son or daughter enjoy learning with computers and the internet?
- Are you looking for ways to get your child interested in careers related to science, technology, engineering, or mathematics?
- Would you like to expose your child to a fun, safe, and secure way to explore STEM learning resources on the web?

iSTEM4Me is your child's gateway to the world of science, technology, engineering, and mathematics for the 21st century. *iSTEM4Me* is a self-directed, web-based learning environment designed to incite students' interest into science, technology, engineering, and mathematics.

iSTEM4Me leverages websites, videos, simulations, and learning resources on the web in a safe, secure, and easily accessible web-based, technology-enhanced learning platform to help elementary, middle and high school students build their interest, skills, and knowledge base in areas related to science, technology, engineering, and mathematics. Topics also include college prep, financial literacy, and more!

iSTEM4Me is a great supplement to academic and afterschool learning! *iSTEM4Me* is a learning platform of LIFTT Inc.
