Subject: Meeting with Minister Trevena

I was fortunate to set up a meeting with our MLA/Minister Trevena last week in Campbell River. We discussed the following issues,

- Highway 28

Although the centre lines were painted last October, the shoulder lines need to be addressed this year. The Minister stated that this is a priority throughout the Province.

At times it seems like the size of the gravel they are using on the road is quit large. She stated that she has heard this a lot and will look into.

Highway Cams, apparently the Crest lake one has been continually damaged, na days also had issues because of how it is powered.

Muchalat road,

This is the main road of town, the Department of Highways is to maintain it, there are some areas that need to be looked at. The Minister said she will discuss with her Staff.

Transportation

I discussed with her that we need some kind of Transit service to and from Campbell River for our residents, especially our Seniors that may not drive. The need to get to appointments, and other services. The Minister will get back to me regarding this issue.

Grants

I asked the Minister to look into the possibility of any grants for Parks. Council has applied for Grants to Revitalize Nimpkish Park, but have had no success to this point.

The Minister will look into.

Library Funding

At the UBCM Meetings last September Councillor Waterman gave the Minister a lot of information regarding the Funding for Library's, she acknowledge the information and told me she will discuss with her colleagues.

Home Care

After I had a discussion with Enid at the Health Clinic, I discussed with the Minister that we need more Home Care in Gild River. Our Senior population is growing and so is the need for more Home Care. I mentioned to her that this is a high priority issue right now. The Minister said she would work on it right away.

Cell Service

The Minister will continue to support this issue that Council has had on their Priority list since 2014.

Seniors Home

We had a good discussion, she gave me some direction that I can look into.

Quadra Island has been working on a seniors home there for along time and have lots of information. I contacted the Area Director Jim Abram and he passed me on to the contact people. I will contact them.

The Minister and I will set up another meeting to discuss further, Brad Unger
