Dear Mr. Waterman

Re: Letter of Intent to provide International Distribution for Taking Back Justice Television

This letter is to express our interest and intent to provide international distribution for your reality television show outside of North America.

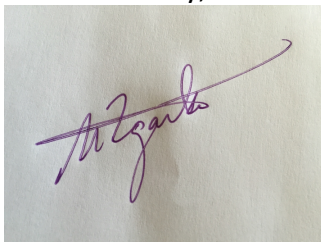

As you are aware, we are also very adept in securing tax credits and incentives for all aspects of production including captioning and dubbing for the international markets. We envisage assisting in the translation of your series into French, Chinese, Spanish, German, Arabic, Hindi, Russian, Portuguese and Punjabi languages.

There has always been a fascination with American crime stories and legal culture and owing to the “underdog” and participatory reality aspect for the show by the audience we feel we have a very marketable product.

We look forward to partnering and working with your team in this endeavor and feel we can leverage on our experience and partners to help commercialise this show for the International community.

As you are also aware, we also have a solid relationship with Google and their emerging status of a broadcaster for versions of your show owing to our status of achieving a record 5 billion hits for the Gummy Bear programming which we distribute.

Yours sincerely,
