

LED Fine-Light Consent and Release Form

Name: (First) _____ (Last) _____ DOB _____

Program and Background

You have requested to be treated with the Lipo-Light LED light therapy manufactured by Innovative Photonics Ltd. Red LED light is a powerful stimulant to the dermis and is an effective way to energize the cells of the skin, promoting the production of collagen and elastin. Lack of collagen and elastin in the skin's cells can result in fine lines and wrinkles. LED Light Therapy has a direct effect on the regeneration of the skin, penetrating the top layers of the skin, energizing the skin, producing collagen and elastin, which helps to plump the skin and reduce fine lines and wrinkles. This is known as Photo Rejuvenation. The purpose of this document is to make you aware of the nature of this product and its risks in advanced so that you can decide whether to go forward with this procedure. Lipo-Light LED therapy has been approved by the FDA. Using the Fine-Light skin rejuvenation system is safe and completely non-invasive. It has been used for years in numerous medical procedures, spas, the offices of aestheticians and dermatologists around the world.

Procedure

Initially you will consult with the therapist to determine if you are a candidate for the Fine-Light LED therapy. During this time you will have the opportunity to ask questions or voice concerns you may have regarding this treatment. If it is determined you are a candidate for this procedure, there will be a few preliminary steps consisting of: initial paperwork, pre and post treatment photos and suggested course of treatment. The treatment will be administered by placing a Fine-Light Mask over the face. It is recommended that a patient will need a minimum of 9 to 12 treatments for the Fine-Light LED therapy to achieve its desired effect over a period of four to eight weeks. This treatment should be used in conjunction with a good skin care as results will happen faster and be more dramatic if used with a high quality anti-aging or moisturizing skin care product.

Risks/Discomforts/Warnings

Using the Fine-Light skin rejuvenation system is safe and completely non-invasive. It has been used for years in numerous medical procedures, spas, the offices of aestheticians and dermatologists and consumers around the world. Always wear the comfort glasses supplied and rest during the treatment. (a) If you are using a thyroid medication or have a thyroid condition, do not use the Fine-Light over the thyroid gland. (b) If you are pregnant or taking medication (such as Tetracycline) which causes light sensitivity, you should consult your physician before using Fine-Light.

Benefits

Fine-Light bathes the skin in a pure light source that generates much needed protein and in turn, allows the cells of the dermis to regenerate, plumping the skin and increasing levels of elasticity. The visible results will depend upon each individual and may be affected by: age of the user, skin condition, diet, smoking and drinking habits. The average time in which a user of Fine-Light will see tangible results is 4 to 6 weeks. For others it may be longer, and in many cases some individuals will see results immediately.
