Horsemanship Riding with Feel. Our groundwork will carry over directly to our riding work. We will explore the three speeds at the walk on a float, picking up a soft feel, carrying the soft feel. The goal is maintaining softness right down to the horse's feet at all gaits and directions.

This clinic will reach across to all disciplines. We will be working with in the horses ring of muscles, which in turn will have meaning to the horse, allowing him to use his mind, then we're on to something!

Let this one day event lead us to a deeper understanding of our friend, the horse. The window to the “good place” that exists on the inside of every horse will once again be opened, let us keep our eyes and hearts open to reach it..

Bring a chair, pack a lunch, bring water, please leave your pups at home. Stalls will be available.
