

## ProTVSolutions Pillow Speaker Monitor (PSM)

## Quickly and easily solve pillow speaker installation problems

Part# - PTV-PSM-1

## **Key Features:**

- Quickly troubleshoot problems related to wall wiring, TV connection, pillow speaker, or the nurse call system.
- The PSM automatically identifies all major industry protocols
  - Zenith (5 Bit & 6 Bit), Philips, LG Pro:Centric, and Samsung
- Displays the protocol set by on the pillow speaker or nurse call system.
- Displays the code and description of the button pushed on the pillow speaker, such as "Channel Down".
- Generates pillow speaker audio to confirm wiring.
- Simulates basic pillow speaker buttons to confirm TV's operation.
- Send commands directly from the PSM to the TV, in any protocol, to determine that the TV and pillow speaker are setup properly.
- Connects between the TV and the wall connector, with just two wires.
- Battery powered, USB rechargeable. Auto standby when not used.
- Includes all typical cables, power supply and carrying case

A short video showing the PSM being used is available at this link: <a href="https://youtu.be/z0BDw\_sWlqM">https://youtu.be/z0BDw\_sWlqM</a>
