

## **CRIME SCENE INVESTIGATOR CERTIFICATION PREPARATION**

As part of the move toward becoming a more centralized, competent, and credible community of crime scene investigators, many practitioners are seeking certification through the International Association for Identification. This 3-day course is designed to prepare those seeking IAI Certified Crime Scene Investigator status, the first level of certification.

Participants will be refreshed on test taking strategies, the application process, and the required materials. Chapter topics will be reviewed in outline format and questions will be presented using a student response system in order to assess areas in which participants need the most review, time then being spent on these topics as necessary. Study guides have been prepared and will be provided for further study. One day will be dedicated to each of the two required texts to ensure ample time is available for review and clarification.

It is strongly recommended that students have access to and be familiar with the textbook material prior to taking the course. This course is not meant to recite the content of the textbook, but to assist with identifying areas that need additional study. Successful completion of this course in no way guarantees a passing score on the actual certification test; it is a review of material that the instructor feels could assist you in preparing to achieve a successful score.

### **COURSE DETAILS**

**DATE:** Dec. 14 - 16, 2015

**TIME:** 8:00 AM to 5:00 PM

**LOCATION:** Miramar Police Department  
2811 SW 186th Avenue  
Miramar, FL 33029

**INSTRUCTORS:** Kelly Ayers

**TUITION:** \$329 per student

## ABOUT THE INSTRUCTOR

### Kelly Ayers

Kelly Ayers has been a Forensic Science Curriculum Developer and Instructional Coordinator at the West Virginia University Forensic & Investigative Science Outreach in Morgantown, WV since 2010. In this position, she has developed and instructed crime scene related continuing education courses and has recently begun instructing college credit courses in the WVU Forensic & Investigative Science minor. Kelly has reviewed book proposals for Elsevier and served on the Technical Working Group assembled by Forensic Quality Services to design guidance documents for the implementation of ISO 17020 accreditation for police forensic units. Previously, Kelly worked for the Asheville, NC Police Department as a Forensic Services

Technician (I-III). In this assignment, she responded to crime scenes for evidence documentation and collection, having been recognized in North Carolina Superior Court as an expert in forensic identification

Kelly received a Master of Science degree in Forensic Science Administration from Oklahoma State University in 2010, a Bachelor of Science degree in Forensic Identification from West Virginia University in 2001, and a Bachelor of Science degree with a double major in Philosophy and Biology from Frostburg State University in 1996 and 2003, respectively. Kelly is a member of both the International Association for Identification (IAI) and the Chesapeake Bay Division of the IAI. She is an IAI Certified Senior Crime Scene Analyst, Second Vice President of the CBD-IAI, and chairs both the Crime Scene Certification and Student Development Committees for the CBD-IAI.

## ABOUT TRITECHFORENSICS

A leader in the forensics market, **TRITECHFORENSICS** provides evidence collection and crime scene investigation products and training to crime labs and crime scene investigators throughout the world. With over 30 years of experience, we are the nation's most proficient developer and manufacturer of forensic kits. We are committed to providing our customers with state-of-the-art forensics products and services at affordable prices. It is our goal, through our research and development program, to continue to develop superior products and training to aid in all aspects of crime scene investigation and crime lab analysis. We know how important our products and training are to the forensics community, from investigation to prosecution – that is why our slogan, **Identify. Collect. Preserve.**, represents the mission of our customers.
