

Triaxial/Mad Weave

Mad weave is a form of tri-axial weaving that weaves in three directions. This class will show you how to build a repertoire of color and weave patterns with one weave structure. We will weave on a flat work surface with satin ribbons. Participants will take home small matted samples, including the tumbling block pattern and a stars pattern. No experience in weaving is required. All materials provided. Just bring your nimble fingers and favorite pair of small scissors.

Instructor: Charlene St. John

Dates: Saturday November 10, 2018, 1:00 – 5:00 and Sunday, November 11, 2018 9:00 –5:00
