

MY SWITCH TO GAS CHECKLIST

APPLY

- Contact My Switch to Gas Team to make sure gas is available to your house
- Complete and return gas service application to My Switch to Gas Team
- Delmarva Power contacts you to schedule onsite visit to determine gas service line and meter location
- Get free estimates from licensed heating contractor or plumber to convert your appliance(s)
- Have your selected contractor complete Delmarva Power's Contractor Form, including the permit number issued by New Castle County or an authorized local municipality, and email it to gasengineering@delmarva.com

INSTALL

- Receive construction letter that your gas service line will be installed soon (this can take up to six weeks from the field visit)
- Delmarva Power installs gas service line
- Your contractor installs inside fuel piping to gas appliance(s) and has work inspected by the County or authorized local municipality
- Your contractor connects the inside fuel line work to Delmarva Power's meter bar
- Call Delmarva Power at 302-429-3040 to install your gas meter
- Welcome to affordable, reliable, clean natural gas
