

Tarp System Innovation
Since 1944

Refuse Roll Tarp

Refuse Roll Tarp Makes Tarping Quick & Easy

Opening & Closing Options

- **Ground-Level Rear Crank** manually rolls tarp system open or closed at rear of trailer from ground level

- **Front Hand Crank** opens the tarp system from the front catwalk (catwalk and ladder not included)

- **Attached Full Rope Pulls** allow tarp system to be pulled closed from the ground eliminating the need to crank

In a matter of minutes your trailer can be completely uncovered using the Aero® side-to-side roll tarp system. Just undo the straps and smoothly crank the roll tarp across the trailer.

Easy Off Roll Stops

- No tools are required to remove and reinstall the tarp

Tarp Options

- Both solid fabric and mesh are available

Attached Fabric End Flaps

- Flaps seal the front of the trailer while the tarp is in the closed position
- Attached design allows flap to roll with the tarp providing full loading area

Ratchets

- Secures tarp while in the closed position

Also available in electric – fully operates from the truck cab.
