

Registration is open throughout the year, although a full year's program starting in September is recommended..

Parents are invited to visit the Pre-school campus at
St. Rosalie's Parish Center
31 Montauk Highway,

Our Lady of the Hamptons Regional Catholic School's Pre-school Program has the general philosophy that the child be placed in a positive, Christian environment that enhances self desire to explore, discover and create.

The curriculum is planned to provide for development of social, intellectual reasoning and the physical skills of each child, and to give opportunities for participation in group learning experiences.

We seek to develop the maximum potential of each child. The program was designed so that parents should see a steady growth from age 2 - 5 and to make the first three years of school an enjoyable, natural, learning process.

TUITION 2016-2017

Our Lady of the Hamptons Regional Catholic School

.....The entire elementary school experience at Our lady of the Hamptons begins with a fully-accredited pre-school program for three and four year old at the bright, open indoor and outdoor facilities at St. Rosalie's Parish Center in Hampton Bays.

The Three Year Old Pre-School is designed to promote independence, self-confidence, and strong social skills. The daily routine enhances language development through stories, art, musical movement, and outdoor play. Three year olds meet two half days a week.

The Four Year Old Pre-Kindergarten is designed to develop a love of learning, self-esteem, independence and readiness skills needed for Kindergarten. This class meets three half or extended days each week.

Active Play provides opportunities to engage in large muscle activities. Children delight in climbing, lifting, pushing and pulling. They develop skills of balance and coordination. Through active play, children build confidence in their motor ability, learn to solve problems, explore on their own and enjoy the companionship of their peers.

Creative Art helps children express feelings, ideas and interests through a variety of art media. Art activities develop coordination, manipulative skills and aesthetic awareness.

Block Play contributes greatly to the physical, social, emotional and intellectual growth of young children. It provides opportunities for manipulation and coordination while aiding the development of initiation and independence, creative expression and imagination. Block play leads to cooperative play and encourages language development. Basic mathematical concepts are developed as children explore the relationship of unit block sizes and shapes.

Science encourages the children to ask "why" and "how" of things in their environment. They make discoveries as they experiment with materials such as magnets, measuring cups and prisms.

Classroom Library provides opportunities to become aware of the joy of reading through

book and story experiences.

Dramatic Play helps the child come to terms with the world. The Housekeeping Corner is one of the most important centers for such play. Children enjoy expressing themselves as they dress up and act out a variety of real and familiar situations.

Outdoor Play is an important part of our daily routine. Through their imagination, children jump, hop, swing, climb and dig as they build fine and large motor skills. Children also have opportunities throughout the year to observe the changing outdoor environment.

Snack (nutritious) snack is provided by the school each day in coordination with learning.

Clothing for pre-school should be simple, practical clothes worn to enable children to participate freely in all activities.

Toilet Training is required of three and four year olds entering school. A change of clothing should be left at school "just in case"

Students who attend the Pre-School Program are given priority of enrollment in the K-8 program at Our Lady of the Hamptons in Southampton..

All classes for pre-school are held at St. Rosalie's Parish Center
In Hampton Bays.
