### Features and Benefits

- RPM is a hard-working chair for the most demanding workplaces.
- Task, high task, and side chair versions available
- One-of-a-kind details include molded-base treads, sculpted levers and four exclusive knit patterns in 37 colorways.
- High performance arm has height, width, pivot and front-to-back positioning. Fixed height arm is width adjustable.
- Soft, ergonomically shaped arm pads reduce arm fatigue.
- High back support offers 4" height adjustment that is easy to adjust from seated position.
- Retractable side tension control knob is ergonomically shaped for easy gripping.
- Forward tilt eliminates strain during intensive keyboarding.
- Synchronized tilt with a 5-position tilt-lock allows for comfortable recline and consistent ergonomic support.
- The basic control includes all ergonomic functions. The advanced control includes basic functions as well as a sliding seat.
- RPM is GREENGUARD® certified.
