

# THE ALIGNMENTS FOR 2016 IN THE YEAR OF LUCIFER

## *Astronomical Events in the Cosmos*

How does the Year of Lucifer or Anno Lucis configure astronomically in 2016 (5776)? The following are just some of the approximate main planetary conjunction and astronomical highlights for the year 2016. It appears that one of the most spectacular alignments occurs in August. It appears that the year is accented with eclipses at the beginning, then with the Mercury Transit in the middle and eclipses toward the end finishing off with the triple Supermoons. Will these dates in some ways correspond to certain events on Earth that might be significant or even Biblically prophetic? As an example the planetary conjunction of August 23, 2016 will be highlighted. August 23 is the 235th day of the year in the Gregorian calendar. There are 130 days remaining until the end of the year.

### **MAR**

09 - Total Solar Eclipse

20 - Equinox

23 - Penumbral Lunar Eclipse

### **MAY**

09 - Transit of Mercury across Sun

12 - Mercury-Venus in Aires

21 - Blue Moon in opposition to Mars

### **JUNE**

06 - Venus-Sun in-between horns of Taurus

20 - Solstice

### **JULY**

16 - Mercury-Venus in Cancer

### **AUGUST**

11 - Sun-Regulus in Leo

11 - Venus-Mercury-Jupiter span the Ecliptic in Leo

11 - Moon-Mars-Saturn with Antares in Scorpio making a 'cross'

**\* AUGUST 24, 2016 HIGHLIGHT**

- Sun-Regulus in Leo
- Jupiter-Venus-Mercy in Virgo
- Saturn-Mars with Antares in Scorpio

**SEPTEMBER**

- 01 - Annular Solar Eclipse
- 01 - Mercury-Jupiter-Venus with Moon in Virgo
- 01 - Saturn-Mars with Antares in Scorpio
- 11 - Sun-Mercury in-between Virgo and Leo, end-beginning of Mazzaroth
- 16 - Penumbral Lunar Eclipse
- 22 - Equinox
- 25 - Sun-Jupiter in Virgo

**OCTOBER**

- 10 - Mercury-Jupiter in Virgo
- 16 – Supermoon
- 25- Sun-Mercury in Virgo
- \*Reverse Revelation Sign with Sun at feet, Moon at head, Jupiter in arm
- 27 - Saturn-Venus-Antares in Scorpio
- 27 - Jupiter-Moon in Virgo

**NOVEMBER**

- 14 - Supermoon (*The last time the moon came this close was on Jan. 26, 1948*).
- 20 - Saturn-Mercury-Antares in Scorpio

**DECEMBER**

- 14 - Supermoon
- 21 - Solstice

**Planetary Retrogrades**

Reaching zenith or maximum, month approximations.

Mercury:	Jan in Aquarius, Apr in Taurus, Aug in Virgo, Dec in Capricorn
Mars:	Jun in Scorpio
Jupiter:	May in Virgo
Saturn:	Aug in Sagittarius
Neptune:	Nov in Pisces
Uranus:	Dec in Aries
Pluto:	Sep in Capricorn

## Occultation of Aldebaran

In 2016 there is a unique cosmic occurrence that repeats 3 times in almost exact intervals for the year. It involves a stellar eclipse of Aldebaran with the Moon. Aldebaran is the fiery red eye of Taurus. These Moon eclipsing Aldebaran will only be visible in North America, as if to denote America, the U.S. in particular. In the occult, Aldebaran is considered the motif for the All-Seeing of Lucifer as the 2 horns of Taurus construe a 'pyramid' when the constellation is depicted right upside. The Ecliptic passes directly in-between the horns and thus the Sun passes at this point around the time of Pentecost for reference. The planets also pass below or above this line. What is unique is that in some cases the retrograde of some planets occur at this precise juncture as it was the case for Venus in 2012.

*Jan 19: A waxing gibbous Moon*  
*Jul 29: A waning gibbous Moon*  
*Oct 19: A waning gibbous moon*

The following are the various Feasts of YHVH for 2016. One peculiar observation about the Feasts concerns Hanukkah. If a 40 day interval is taken from the Hanukkah of December 7, 2015, then the 7<sup>th</sup> interval of time will be on September 11, 2016 or a 9-11 pattern.

*2016 + 40 days intervals =*

*1 Jan 15*  
*2 Feb 24*  
*3 Apr 04*  
*4 May 14*  
*5 Jun 23*  
*6 Aug 02*  
***7 Sep 11***  
*8 Oct 21*  
*9 Nov 30*
