

Gravity

**We're here to challenge your belief
We've got this firmly tongue in cheek
Please pardon our stupidity**

**We are defying entropy
We maximize capacity
Achieve escape velocity**

**It seems we never shall be free
While tethered to this freaking leash
Bound by colossal gravity**

Freaking gravity

**Interstellar Being Z
Acknowledging humanity
From galaxy to galaxy**

**Communication frequency
Reversing our polarity
So are we friend or enemy?**

**It seems we never shall be free
While tethered to this freaking leash
This astronomic gravity**

Freaking gravity
