T-34
 1941-1945
 1:35 Scale

This model is a highly detailed representation of the T-34 tank, showing the turret, main gun, secondary gun, and machine gun. The hull is painted in a camouflage pattern of tan, brown, and grey. The model is mounted on a green base.

The T-34 was a Soviet medium tank that played a major role in the Eastern Front during World War II. It was designed for mass production and was known for its reliability and ease of maintenance. The T-34 was the most numerous tank in the world during the war, with over 80,000 units produced.

M4 Sherman Tank

Model of the M4 Sherman tank, a main battle tank used by the United States Army during World War II. The tank is shown in a desert camouflage paint scheme.

Green Military Helmet

Model of a green military helmet, likely a M1 helmet, used by the United States Army during World War II.

Model of a T-34 tank, built from LEGO bricks. The tank is painted in a dark olive green color with a white star on the side. It features a turret with a main gun barrel extending to the right and a secondary gun on top. The tank is mounted on a track system with multiple sprockets and idlers. The model is placed on a white card with printed text.
