

EverPrime®

Simply Add It...and Forget It!

- eliminates odors in facilities
- great for empty / abandoned buildings
- no evaporation

Item #1514, 1 Litre (individual or case qty. 12)

Item #1501, 4 Litre (individually or case qty. 4)

WORKS GREAT IN:

- Floor and Shower Drains
- Condensate Drains
- Plumbing Fixtures
- Drains with Broken Trap Primers

KEY FEATURES:

- Eliminates Dangerous Sewer Odors
- Long Lasting - No Evaporation
- Freeze Point is minus 20 degrees
- Biodegradable
- Saves Man Hours and Call Backs
- Improves IAQ

TYPICAL APPLICATIONS:

- All Educational Facilities
- Hospitals
- Stadium Restrooms
- Vacated Buildings & Apartments
- Restaurants, Factories, Cabins
- Vacations / Off-Season Locations
- RV's, Boats, etc.

DIRECTIONS FOR USE:

BUILDING SIDE ONLY:

Pour 4 litres of water into the drain and then add EverPrime®:

- For traps up to 50mm - add 90ml EverPrime®
- For traps 65mm to 150mm - add 180ml EverPrime®

OR

BUILDING SIDE & DRAIN SIDE:

Pour 4 Litres of EverPrime® into an empty 4 Litre plastic water jug. Add water to within 80mm from top. Shake the jug vigorously and quickly pour mixed liquid into drain to fill trap seal. Keep remaining mixture for your next dry trap application in jug.

Note: Large quantities of water entering the trap may wash away the EverPrime®. Simply refill when needed.
