

Who We are-Continued

The Illinois Casino Gaming Association (ICGA) is a not-for-profit organization representing 8 of the 10 riverboat gaming operations in Illinois. (Industry data includes all 10 casinos). Together, these businesses are the entertainment choice for millions of people, recording over 13,500,000 admissions in 2014. We are active corporate citizens who provide a huge boost to local and state economies.

The casino gaming industry provides 7,133 jobs, and every year injects more than \$1 billion into the state's economy. In 2013, we spent more than \$177 million with local Illinois vendors and suppliers and stimulate tourism, attracting numerous out-of-state visits a year to our communities.

Illinois casinos are dedicated to the communities where they do business, as well as to Illinois as a whole. In 2013, casinos donated more than \$11.5 million to charities and civic projects across the state. In addition, ICGA actively promotes responsible gaming by funding the 1-800-GAMBLER, a 24/7 help line and referral service for problem gamblers, and is a supporter of other programs aiding those impacted by problem gaming.

We invite you to take a moment to read about the casino industry's contributions to Illinois. Together, we look forward to continuing to help foster the growth of our communities.
