Pledge of Allegiance

Minutes were accepted as written

1. Brent, the engineer from Woodard & Curran gave a further explanation of how the Equivalent User system works in general and how ours would work, specifically. With careful management, with this change in the ordinance, there should be a few thousand gallons available in the existing system, which could keep us in business until a new plan is in place.
2. Ray made a motion that the EU value be set at 90 gallons per day, as advised by the engineer. Lucia 2nd, passed 6-1.
3. Next meeting will be February 18, 6 pm.

Adjourn 8 pm.

Submitted by Lucia Terry, recorder.
