

Preparing Luminaries for Christmas Eve:

1. Turn each bag down twice to prevent bag from folding in on itself and burning, especially if there is a wind.
2. Put sand or kitty litter in bottom of bag before putting in candle. Or use a tuna or pet food can with sand or kitty litter and put candle in the can. (empty cans available outside the library.)
3. Evenly space the bags/candles in front of your home.
4. Light luminaries by dusk on Christmas Eve.
5. If you will not be home, arrange with your neighbor or block captain to put them out for you.

Thank you, everyone, for participating in this Oaks Royal III tradition for a magical Christmas Eve!!
