Summertime in the Rockies

Flowing through the heart of Colorado,
The mighty rivers weave their tale,
The lifeblood of the land, a constant force,
Shaping the contours of the terrain.
From the snowmelt of the mountaintops,
Oh, the fertile plains below,
Their serenade, a soothing melody,
Quenching the thirst of the parched earth.
As I stand on the riverbank,
I hear the whispers of the water,
A song of renewal and hope,
An ode to the ever-flowing beauty of Colorado.
